

Non-UCITS retail scheme key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Epworth Climate Stewardship Fund for Charities, a sub-fund of Epworth Investment Funds for Charities

Income Units (ISIN: GBooBMD3GL27)

The fund is managed by Epworth Investment Management Limited, a wholly owned subsidiary of the Central Finance Board of the Methodist Church

Objectives and investment policy

This fund seeks

- income and capital growth over a minimum period of 5 years by investing at least 70% in the shares of UK Companies (UK based companies listed on the London Stock Exchange).; and
- a carbon intensity, substantially lower (at least 15% lower, but better if possible) than that of the FTSE All Share Index.

We use a climate stewardship approach which:

- excludes companies that extract or refine fossil fuels and which have a material involvement (e.g. 20% of turnover), with supplying the fossil fuel extractives and refining industry with goods or services;
- seeks to minimise exposure to other companies that are fossil fuel intensive or are responsible for high levels of greenhouse gas emissions;

- engages with companies whose shares are held in the portfolio to encourage more action to reduce the risk of climate change; and
- excludes companies through ethical screening based on Christian principles.

We can also invest in companies we believe will contribute to a transition to lower carbon emissions in the UK or globally and can hold other funds (including those managed by us) and cash/near cash.

Other information

Income from investments in the fund will be paid out to you in accordance with the instructions given in your charity's original application unless otherwise amended.

More information on the management of this portfolio can be found at www.epworthinvestment.co.uk.

Risk and reward profile

- We have calculated the fund's risk and reward category, as shown above, using an industry-standard method.
- The fund appears in category 4 because the fund's units have seen some changes in price, but not as much or as often as funds that invest in different assets.
- This indicator is based on estimated data and may not be a reliable indication of the fund's future risk profile
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean "risk free".

This indicator does not take account of the following risks:

- In some market situations, it may be more difficult to sell the fund's assets at a desirable price which may affect our ability to redeem investors' units
- The Manager may determine to invest part of the fund's assets in smaller companies. These may be more difficult to sell than larger companies, with larger differences between their buying and selling prices. They are also prone to more rapid changes in their prices in volatile market conditions.

Charges

The charges you pay support the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0%
Exit charge	0%

This is the maximum your money that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charges	0.88%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The ongoing charges figure is an estimate based upon the forecast assets under management for the first 12 months of the life of the fund. It includes a management fee of 0.65% from Epworth Investment Management Limited, Trustee, Depositary and Custodian fees and estimated third party costs. The management fee is not subject to VAT. Ongoing charges may vary from year to year. The ongoing charges are taken from the income generated by the investments. Investments in the fund may be sold to meet ongoing charges and the value of your shares would be reduced. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges (including charges made to counteract the costs of dealing in investments), please see the fund's prospectus, which is available at www.epworthinvestment.co.uk/news-and-library/fund-forms

Past performance
