

Non-UCITS retail scheme key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest

Epworth Sterling Sovereign Bond Fund for Charities, a sub-fund of Epworth Investment Funds for Charities

Accumulation Units (ISIN: GBooBJBT3Q52)

The fund is managed by Epworth Investment Management Limited, a wholly owned subsidiary of the Central Finance Board of the Methodist Church

Objectives and investment policy

This fund seeks a combination of income and capital growth by investing at least 30% of the fund in fixed coupon Gilts, with the balance in variable rate or index linked Gilts or other bonds issued or guaranteed by sovereign states.

- The fund is actively managed and seeks to outperform the iBoxx Gilt Index.
- The fund may also hold cash and near cash investments.

Risk and reward profile

- We have calculated the fund's risk and reward category, as shown above, using an industry-standard method.
- The fund appears in category 4 because the fund's units have seen some changes in price, but not as much or as often as funds that invest in different assets.
- This indicator is based on estimated data and may not be a reliable indication of the future risk profile of the fund.

Other information

Income from investments in the fund will be rolled up into the value of your units as you hold accumulation units.

More information on the companies that are excluded from investment by Epworth's Christian ethical policies can be found at www.epworthinvestment.co.uk/ethical-investment

- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.

This indicator does not take account of the following risks:

- In some market situations, it may be more difficult to sell the fund's assets at a desirable price which may affect our ability to redeem investors' units.
- In recent years interest rates have remained low and relatively stable. A significant increase in interest rates is likely to reduce the value of the fund's investments and the price of units.

Charges

The charges you pay support the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0%
Exit charge	0%

This is the maximum your money that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charges	0.57%

Past performance

The Fund was launched on 30 April 2019 and the one year performance to 29 April 2020 is outlined opposite. Five year performance is not available. Past performance is not a guide to future performance.

The ongoing charges figure is an estimate based upon the forecast assets under management for the first 12 months of the life of the fund. It includes a management fee of 0.25% from Epworth Investment Management Limited, Trustee, Depositary and Custodian fees and estimated third party costs. The management fee is not subject to VAT. Ongoing charges may vary from year to year. The ongoing charges are taken from the income generated by the investments. Investments in the fund may be sold to meet ongoing charges and the value of your shares would be reduced. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges (including charges made to counteract the costs of dealing in investments), please see the fund's prospectus, which is available at www.epworthinvestment.co.uk/news-and-library/fund-forms
